## CHECKLISTS

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. All such publications are included also in the classified section and indexed in the author and subject indexes.

U. S. D. A. PUBLICATIONS

Periodicals issued by the Department are listed in the November issue only; articles in them are indexed currently.

Domestic requests for publications in the various Department series will be filled free to libraries upon application to the Office of Information, United States Department of Agriculture, Washington 25, D. C., as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington 25, D. C.

Bureau publications may ordinarily be obtained free of charge from the issuing bureau as long as the supply lasts.

Foreign institutions, organizations and agencies which issue publications may obtain United States Department of Agriculture publications in exchange by writing to the National Agricultural Library, United States Department of Agriculture, Washington 25, D. C.

# BIBLIOGRAPHY OF AGRICULTURE

NATIONAL AGRICULTURAL LIBRARY  
U.S. DEPARTMENT OF AGRICULTURE

## THE FIRST STAGE IN COMPUTER USE FOR PRODUCING THE BIBLIOGRAPHY OF AGRICULTURE

In 1962 the Administrative Assistant Secretary requested the Office of Management Appraisal and Systems Development of USDA to design and present in detail the concepts of an information retrieval system for the National Agricultural Library. Task Force ABLE (Agricultural—Biological Literature Exploitation) was established, a comprehensive plan has been developed, and the first stage in the Library's projected system is presented in this issue of the Bibliography of Agriculture.

The Personal Index in this issue has been prepared with the aid of an optical scanner—a character recognition device—in combination with computers. The optical scanner portion of the index production is a relatively novel approach to the preparation of an index. Unlike the machine that can recognize special numerals only, such as those printed on bank checks, the optical scanner used in this system “reads” both numeric and alphabetic characters.

To do this, the material to be read is typed, at random, in a specially designed type face on continuous perforated sheets which are advanced through the typewriter by a pinfeed mechanism. The sheets are separated and mounted on the scanner which “reads” the typed characters, one line at a time, transferring the images to a magnetic tape in the form of magnetized spots. Alphabetizing of the random listings is performed by a high capacity computer, and a new magnetic tape is produced on which the names are in correct alphabetic order.

The heart of the system is another computer program which takes the sequenced tape and composes an entire page of five columns within the memory of the computer. This page is written on another magnetic tape, one line at a time, and the tape is printed out by another computer on master sheets, with all five columns for each page being printed simultaneously for the monthly issuance of the Index. Once a year the monthly tapes will be merged by still another computer program into an annual cumulative index. New pages will be composed and printed.

The next phase of the Bibliography's mechanization calls for the application of the same optical scanner-computer combination for the production of a monthly subject index and an annual cumulative subject index. This index requires more complex systems designing and programming. Our experience in this and other phases of mechanization of the Bibliography of Agriculture will be reported as they are actuated.

The development of this system is due in great part to the work of Earl Hoisington, Office of Management Appraisal and Systems Development, who guided the Task Force and designed the total system. Credit is also due Ljubo Lulich, Chief, Division of Indexing and Documentation, NAL, for his practicality in adapting these new procedures to our bibliographic work.

# BIBLIOGRAPHY OF AGRICULTURE

Vol. 28

August 1964

No. 8

The Bibliography of Agriculture is an index to the literature of agriculture and the allied sciences received in the National Agricultural Library. Publications from any country are indexed, provided they are in one of the languages shown in CAPITALS at bottom of this column, or have summaries or abstracts in one of those languages.

Literature received more than one year after publication is generally not indexed. Exceptions are made for important scientific publications.

Indexing of articles on the processing of agricultural products is limited to those on primary processing.

Unsigned articles and those signed with pseudonyms or initials, editorials, letters to the editor, and columns appearing regularly, are omitted.

## FORMAT

The Bibliography is a classified arrangement of references under the following subjects:

- Plant Science
- Soils and Fertilizers
- Forestry
- Animal Industry
- Entomology
- Agricultural Engineering
- Agricultural Products
- Agricultural Economics and Rural Sociology
- Food and Human Nutrition
- Miscellaneous

The classified section is followed by the listing of:

- New Periodicals and Serials
- Translations
- USDA Publications
- State Agricultural Experiment Station Publications
- State Agricultural Extension Service Publications
- Food and Agriculture Organization of the UN (FAO) Publications

The last section of each monthly issue is the Personal and Organizational index for that issue.

Foreign language titles of articles in serial publications are given in English only. The language of the text is shown in abbreviated form in parentheses at the end of the title. The following notations are used:

(Af)	Afrikaans	(Ic)	Ícelandic
(Al)	Albanian	(In)	Indonesian
(Ara)	Arabic	(It)	ITALIAN
(Arm)	Armenian	(Ja)	JAPANESE
(Az)	Azerbaijani	(Ka)	Kazakh
(Be)	Belorussian	(Ko)	KOREAN
(Bu)	Bulgarian	(La)	Latvian
(Bur)	Burmese	(Li)	Lithuanian
(Ch)	CHINESE	(No)	NORWEGIAN
(Cz)	CZECH	(Pe)	Persian
(Da)	DANISH	(Pol)	POLISH
(Du)	DUTCH	(Por)	PORTUGUESE
(Es)	Estonian	(Rum)	Rumanian
(Fi)	Finnish	(Rus)	RUSSIAN
(Fl)	Flemish	(Se)	SERBO-CROATIAN
(Fr)	FRENCH	(Si)	Siamese

(Gre)	Greek	(Sw)	SWEDISH
(He)	Hebrew	(Ta)	Tadzhik
(Hi)	Hindi	(Tu)	Turkish
(Hu)	HUNGARIAN	(Uk)	UKRAINIAN

For monographs the title is shown in the original language, followed by the English version.

Abbreviated names of the publications cited are those from USDA Miscellaneous Publication 765—List of Serials Currently Received in the Library of the United States Department of Agriculture, July 1, 1957.

The presence of the term "Ref." in the citation indicates that the article contains ten or more references to the literature.

Following each citation is the Library classification number which should be used when requesting loans or reproduction of articles.

## FREQUENCY OF PUBLICATION

The Bibliography is published monthly. The December issue is devoted wholly to a subject index and the cumulated Personal and Organizational index to the preceding eleven issues.

## AVAILABILITY OF REFERENCES CITED

Except for printed publications of the Department of Agriculture which are usually available in limited supply for free distribution, the publications cited in the Bibliography are not available for free distribution from the Department.

Publications issued by the State Agricultural Experiment Stations and State Agricultural Extension Services are not available from the Department of Agriculture. Unless noted otherwise, these publications may be obtained from the experiment station or extension service issuing them.

**Loans.** Publications are loaned only to employees of the Department and to other libraries. Periodicals, foreign statistical publications, and rare books are not loaned outside Washington, D. C.

**Reproduction.** All articles listed may be obtained in microfilm or photoprint form from the National Agricultural Library. Copying charges for each periodical article or book are:

**MICROFILMS:** \$1.00 for each 30 pages or fraction copied from a single article or book.

**PHOTOPRINTS:** \$1.00 for each 4 pages or fraction copied from a single article or book.

**RUSH SERVICE** will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check or money order drawn to the National Agricultural Library, USDA, are acceptable. Payment for orders originating outside of the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored. Credit may be extended only to Government agencies and institutions. Billing address should be indicated.

**Library Coupons.** National Agricultural Library coupons, valued at \$1.00 each, may be purchased in any quantity.

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.  
\$12.00 per year, domestic; \$15.50 per year, foreign. Single copies vary in price.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget (March 31, 1964)

## CHECKLISTS

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. All such publications are included also in the classified section and indexed in the author and subject indexes.

U. S. D. A. PUBLICATIONS

Periodicals issued by the Department are listed in the November issue only; articles in them are indexed currently.

Domestic requests for publications in the various Department series will be filled free to libraries upon application to the Office of Information, United States Department of Agriculture, Washington 25, D. C., as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington 25, D. C.

Bureau publications may ordinarily be obtained free of charge from the issuing bureau as long as the supply lasts.

Foreign institutions, organizations and agencies which issue publications may obtain United States Department of Agriculture publications in exchange by writing to the National Agricultural Library, United States Department of Agriculture, Washington 25, D. C.
